

Biopolis Dresden PhD Symposium 2022

Monday 07 March 2022

Chalk talks - Seminar Rooms (16:30-17:30)

time	[id] title	presenter
16:30	[62] Chalk Talk Room 1	
	- [1] The functional analysis of ILF3 in RNA Pol II dependent transcription	AMLEROVÁ, Zuzana
	- [2] Function of phosphatidylinositol 4-phosphate in the cell nucleus	BIDDLE, Veronika
	- [3] Elucidating the interaction between tissue niche and gene expression and the role in pancreas progenitor maintenance and differentiation	LEWIS, Allison
	- [4] Role of hypoxia pathway proteins in hematopoiesis and cancer	Mr RODRIGUEZ, Diego
	- [5] Bidirectional Interference of Mesenchymal Stromal Cells and Antileukemic Effector Cells within the Bone Marrow Microenvironment	TOWERS, Russell
16:30	[63] Chalk Talk Room 2	
	- [1] Involvement of nuclear phosphoinositides in regulation of cellular processes	MILADINOVIĆ, Ana
	- [2] Computational design of novel recombinases for genome editing	Mr SCHMITT, Lukas
	- [3] Helical Motion and Torque Generation of Microtubule-Crosslinking Kinesin Motors	MEIßNER, Laura
	- [4] The role of Cluh in glucose homeostasis	Mr SANCHEZ VILLALBA, Alvaro
	- [5] Directed molecular evolution of Vika site-specific recombinase	JELICIC, Milica
